EDUCATION

- Indian Institute of Information Technology Sri City** Chittor, India
Bachelor of Technology – Computer Science and Engineering CGPA: 9.13/10
2023 – 2027

SKILLS SUMMARY

- Languages:** Python, JavaScript, C++, HTML/CSS
- Frontend:** React.js, Next.js, Tailwind CSS
- Backend:** Node.js, Express.js, FastAPI
- Databases:** MongoDB
- AI & ML:** Hugging Face Transformers, PyTorch, Whisper, IndicTrans2, Scikit-learn
- Tools & Arch.:** REST APIs, WebSockets, OAuth 2.0, Git, GitHub

PROJECTS

- Mockly — Agentic AI Interview Platform** [Github]
Next.js, Python, Google Gemini, Whisper, FastAPI
 - Engineered a real-time mock interview application with a Next.js frontend and Python FastAPI backend, handling AI orchestration, audio streaming, and session management.
 - Built a multi-modal conversational pipeline combining speech recognition (Whisper STT), an LLM for dynamic question generation, and TTS synthesis for natural voice interaction.
 - Achieved low-latency turn-taking via Voice Activity Detection (VAD) and continuous audio streaming, enabling seamless interruptible conversations.
- Book Translator — NLP Translation Pipeline** [Github]
Python, IndicTrans2, HuggingFace, Colab
 - Developed an ML-powered translation pipeline using the AI4Bharat/IndicTrans2 (1B parameter) model to translate English texts into Indic languages with high accuracy.
 - Preserved original document layouts across PDF and TXT files via a robust batch-processing system for large-scale translation.
 - Evaluated performance using BLEU, TER, and METEOR metrics with comparative analysis against Google Translate, ChatGPT, and Gemini.
- DevQuiz — AI-Powered Assessment Platform** [Github] [Live]
MERN Stack, Tailwind CSS, Gemini API
 - Built a full-stack assessment platform using the MERN stack with Google OAuth 2.0 authentication, group-based role controls, and real-time leaderboards.
 - Dynamically generated quizzes and coding challenges using an LLM, with react-markdown and rehype-highlight for rich code snippet rendering.
 - Architected a “Bring Your Own Key” (BYOK) system for secure user-level API key injection, eliminating central quota dependency.

POSITION OF RESPONSIBILITY

- Epoch AI-ML Club** IIIT Sri City
Club Lead (promoted from Deep Learning Domain Core) August 2024 – Present
 - Promoted from domain core member to Club Lead within a year; spearheaded technical workshops on Deep Learning and Generative AI, reaching 100+ students.
 - Built and deployed event and club websites, and co-organized inter-college AI/ML competitions and speaker sessions.

CERTIFICATIONS

- Deep Understanding of Deep Learning (Udemy):** ANN, CNN, RNN, GANs, Autoencoders, Transfer Learning
- Machine Learning A-Z (Udemy):** Regression, Classification, Clustering, NLP, Deep Learning
- Natural Language Processing (Udemy):** POS Tagging, Text Classification, Sentiment Analysis, Topic Modelling
